All components are produced to perform seamlessly together for perfect functioning in all common types of weapons.

### Performance:

|                                |                |
|--------------------------------|----------------|
| Term of reference              | C.I.P.         |
| Temperature range              | -20°C to +52°C |
| Mean case mouth pressure (bar) | -              |
| Muzzle velocity (m/s)          | -              |
| Muzzle energy (J)              | -              |
| Accuracy                       | -              |

### Cartridge:

|                     |                               |
|---------------------|-------------------------------|
| Projectile          | Blank,                        |
| Projectile material | -                             |
| Primer / propellant | Standard / Double base powder |
| Case material       | CuZn alloy                    |
| Article number      | Tbd.                          |

### Packaging:

*50 rds./cardboard box, 1 000 rds./cardboard box*
